

## [Soft Starters Model Selection]

Voltage: 380V - 420V AC  $\pm$  15%

Model No.	Power (kW)	Current (A)	Dimensions (mm)	G.W (kg)
GJ3-5d5	5.5	11	160*146*270	5
GJ3-7d5	7.5	15		
GJ3-011	11	23		
GJ3-015	15	30		
GJ3-018	18.5	37		
GJ3-022	22	43		
GJ3-030	30	60		
GJ3-037	37	75		
GJ3-045	45	90		
GJ3-055	55	110		
GJ3-075	75	150	194*257*525	21
GJ3-090	90	180		
GJ3-115	115	230		
GJ3-132	132	264		
GJ3-160	160	320		
GJ3-185	185	370		
GJ3-200	200	400	245*290*560	25
GJ3-250	250	500		
GJ3-280	280	560		
GJ3-320	320	640		
GJ3-355	355	710	245*330*590	32
GJ3-400	400	800		
GJ3-450	450	900		
GJ3-500	500	1000	300*450*740	45
GJ3-600	600	1200		

Gozuk GJ3 series intelligent motor soft starters are manufacturing under power electronics technologies, microprocessor technologies and modern control theory technologies, it's an up-to-date international advanced starting device. These soft starters can restrict induction AC motor starting voltage effectively during motor start-up period, which can be widely used in fans & pumps, compressors and other heavy load equipments. This soft starter is an ideal replacement for star/delta conversion, self-coupling voltage reduction and magnetron control voltage reduction devices etc.
